PARENTAL INVOLVEMENT (STEWARDSHIP SERVICES)

Parental involvement is a concept that Catholic schools across the nation have promoted for many years. It comes as no surprise that the importance of engaging parents in the spiritual and academic education of their children has been an integral part of the Catholic school culture and is considered one of the unique strengths of Catholic education. Recently the tremendous impact of partnership between parents and schools has been thoroughly studied and the research is overwhelmingly clear. Involving parents in the educational process builds school community and has a tremendous influence not only on academic achievement, but also on creating positive attitudes and fostering the long-term success of students.

Rayne Catholic Elementary's parental involvement policy is referred to as Contributed Services. A contributed service is defined as any active physical service to the school in any capacity which supports the mission of Rayne Catholic Elementary School. RCE envisions its parents and families supporting the school with AT LEAST ONE PROJECT of stewardship services during the school year.
